

## Installation Instructions Mini Heki( replacement of the glazing-dome)

Replacement has to be made only if the production-date is before 11.2002!  
(Date of production you can find as described in pic.1)

**Replacement-Set includes:** bolt (2 pieces), cap (2 pieces), bush (8 pieces)

1.) On this position you can find the date of production.

2.) Remove the cap by using a screwdriver.

7.) Push the bush inside.

8.) Correct position of the bushes. Now fit the glazing panel into the hinges.

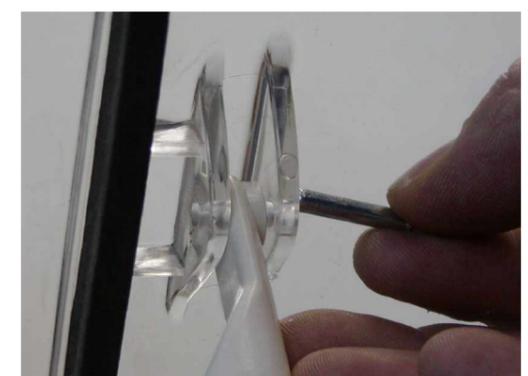

3.) Remove the bolt with a pointed plier.

4.) Push back the hinge- pine and follow to pic.5.

9.) Beat the hinge-pin into with a hammer.

10.) Bust the bolt in the hole of the glass and the bow.

5.) Catch the hinge- pin with the pliers and pull; if necessary hit the pliers with a rubber mallet.

6.) Fit the bushes. ( 4 pieces left-side/ 4 pieces right-side). The bushes are only necessary if there is a black bolt (with a diameter of 6)

11.) Press the cap with a tong to the bolt.

12.) Replacement is finished -check functions!
